PROFILE

Motivated second year BSc (Hons) IT undergraduate at APIIT University with a strong foundation in web development, database structure, networking and cloud Infrastructure. Experience in developing academic projects using modern technologies and collaborating real-world industry challenges. Passionate about learning technologies, solving practical problems, and contributing to innovative IT solution. Possesses excellent teamwork, communication and analytical skills.

EDUCATION

School : G / Anula Devi Gil's College

- Ordinary Level (O/L) : A7 , B1, C1
- Advanced Level(A/L) : C(Chemistry),S(Combined Maths), S(Physics)

APIIT Sri Lanka

BSc (Hons) in Information Technology

2024 - present

2025 - present

Relevant Modules

- Commercial computing
- Database structures and algorithms
- Web Development and Operating system
- Enterprise cloud and Infrastructure Automation
- Networking Concepts and Cyber security

SKILLS

- Programming Language : Python/ JS/ C#
- Web Technologies: HTML ,Tailwind CSS, JavaScript, React.js, Node.js, Express.js
- Database : MySQL
- Networking : Cisco packet Tracer
- Cloud Infrastructure: AWS academy learner lab
- Tools : Visual Studio Code , Visual Studio, Git & GitHub , XAMPP, AWS academy, postman

PROJECTS

Urban Harvest Hub

Technologies: React.js, Node.js, Express.js, MySQL

- Developed a full-stack web application connecting farmers and consumers.
- Implemented secure user authentication and role-based access.
- Designed and managed a MySQL database.
- Developed responsive user interface
- Implemented backend APIs and notification features

Inventory management System

Technologies: C#, Windows Forms

- Developed a desktop application using the MVC architecture
- Implemented login authentication.
- Developed Role-based access control (RBAC)
- Implemented Inventory management features.

Nestle Business Innovation Project

- Collaborated with a team to solve a real-world business challenge presented by Nestle.
- Conducted research and analyzed business requirements.
- Proposed an IT - Based solution to address the identified problem.
- Presented the solution to industry professional.
- Strengthened team work, communication, and analytical skills.

Shipping Network Simulation

Technologies: C#

- Implemented Dijkstra's Algorithm to determine the shortest delivery paths.
- Developed weighted graph data structures.
- Simulated traffic congestion using dynamic edge weights.
- Applied greedy algorithms for route optimization.

CERTIFICATIONS

- The Open University of Sri Lanka / certificate of competition in Computer Literacy(Completed)
- The Open University of Sri Lanka / Certification of an English (Completed)
- LinkedIn courses: [linkedin.com/in/thamasha-amarasinghe-741a5733b](https://www.linkedin.com/in/thamasha-amarasinghe-741a5733b)

LANGUAGES

Sinhala (Native)

English(Basic)

Tamil(Normal)
